

Archaeology Resources

ArchaeoCaravan Program

The ArchaeoCaravan Program brings archaeology to life across Saskatchewan! Our mobile activity centre hits the road to share exciting stories, hands-on activities, and the rich heritage of the land with communities all over the province.

Explore how tools and artifacts were made and used. We help you travel back in time to learn how people lived long ago. It's a great way to discover why archaeology is important to understanding Saskatchewan's amazing history.

The ArchaeoCaravan Program is available to museums, community groups and schools and can be adapted to all ages.

ArchaeoKit

One of our most popular educational resources, the ArchaeoKit focuses on archaeology from the Saskatchewan Plains region and includes examples of tools, food, activities, and personal belongings that were important to Indigenous groups and non-Indigenous settlers, much of which remains relevant to their descendants today. Each ArchaeoKit includes both replica and original items, spanning Saskatchewan's 12,000 year human history.

A comprehensive manual and teaching sheets provide additional learning opportunities. In-depth analysis of the contents encourages historical thinking, writing and art skills. Hands-on materials enhance student learning.

The ArchaeoKit makes teaching Saskatchewan archaeology fun and engaging!

A complimentary "Map of Saskatchewan Archaeology" is included with each rental.

Connecting Saskatchewan's past to you!
