

Archaeology Resources

Archaeology In Depth - Educator Professional Development and Museum Staff Training

SAS staff offer a half-day (3 hours) or full day (up to 6 hours) training session for middle and high school years teachers, or for museum staff and volunteers.

Digital presentations about Saskatchewan archaeology are followed by hands-on learning with SAS archaeology resources, such as the ArchaeoKit and ArchaeoCaravan activities.

Archaeology Activities

Individual activity kits add to learning about archaeology and its many components. Topics may include rock art, pottery making, ceramic reconstruction, bison hunting, animals of the fur trade, bison bone matching game, and more. These activities may be offered through of the ArchaeoCaravan Program as well. Materials and instructions are included with each kit.

Archaeology Presentations

SAS staff offer a number of digital presentations. Topics may range from archaeology basics to site or artifact or historic/cultural subject specific talks. Presentations can be tailored to a particular topic in partnership with a business or community event.

Archaeology Workshops

SAS staff or external facilitators can provide a variety of workshops for small groups. Possible hands-on workshop topics include flintknapping, cordage making, bead making, lithic (rock) identification and historic artifacts. Possible excursion workshop topics include urban archaeology, site recording, and plant walks.

Kiwetinoḥk Pictograph Exhibit

A former traveling exhibit has been converted to a digital presentation with narrated slides and is available on our YouTube channel. An accompanying teaching guide is available for download.

Archaeology Self-Driving Tours

A variety of one to several day self-driving tours PDFs is available for download from our online store. The intent of these tours is to raise awareness of our long human history, and expose the participants to a range of unique experiences and sights/sites.

Connecting Saskatchewan's past to you!
